

100% Virtual Learning Model

In Trimester 1, CRPHS will deliver instruction to all students via Virtual Learning to start the school year. Students will attend academic classes synchronously four days per week and their Work Study Internship synchronously one day per week. The school day operates from 9am to 3pm every day, for academic classes and for Work Study.

Synchronous learning refers to a learning event in which a group of participants is engaged in learning at the same time in the same virtual space. Students will be learning with their regularly scheduled class. **Asynchronous learning refers to learning experiences that are self-paced. The teacher and the student are not engaged in the online learning process at the same time.** During asynchronous learning, students will be expected to check Google Classroom, stay up to date on assigned academic work, check email messages, and complete all assignments.

Schedule:

- Every week a student will participate in a total of four instructional days and one work study day. A typical week includes two A days and two B days of instruction and one day of work study.
- Below is a sample schedule of a week for each grade level. *Regular communication will be sent to each grade level to remind students of their specific schedule for the week.*

Attendance:

- Students are expected to be present in every class period/work session during the day. Attendance will be taken every class period. Parents/Guardians should notify the CRPHS Attendance Office of a student's absence, lateness, or early dismissal previous to the start of the class day. You can notify the Attendance Office by emailing Dr. Blome, Dean of Students, at dblome@crphs.org.
- A member of the Attendance Office will contact the parent/guardian of any student marked as absent or with a pattern of lateness, unless prior information has been supplied by the parent/guardian.
- Unless otherwise communicated by the teacher, students should be visible participants during their zoom live class and work study sessions.

Technology:

- All students will be provided a Chromebook for the school year. These devices are the property of Cristo Rey. Students will need to sign a technology contract and students are expected to properly care for their Chromebook. Information about Chromebook distribution dates will be forthcoming.
- WiFi connectivity is a necessary component to accessing distance learning. Please answer our **technology survey** [here](#), so we can best provide you and your student the tools to successfully complete distance learning.
- If you have additional questions, please contact Fahv Jimenez at: fjimenez@crphs.org.

CRPHS will have high expectations and high support for all students. We promise to provide a high quality education and work study experience, and we thank you for your flexibility and support during these times. Do not hesitate to email covid19@crphs.org with questions/concerns.
